THE TORIC LENS FRAUD

Opticians and some oculists not content with a reasonable price for an ordinary lens have fostered upon the public a deep curved glass. They are not only of no benefit but really harmful in the stronger curves on account of the prismatic effect and consequent color change.

The statement that you see straight through the glass in looking down, up, or all around is misleading, you look through the center of any lens, the frame is tilted for reading, the eyes are closed when looking up, and looking all around is intolerable and a violation of police regulations, so—"What's the Use?"

"Their Hour"

CLOE MADISON in the beautiful portrayal of a neglected wife and the unloved husband of another, who are drawn together by their similar experiences. Learn of their temptations to give up all for love. A heart throb to every scene.

WHEN HE PROPOSED.

One of those famous Nestor Comedies.

The young married man finds that his wife's family want an automobile. He buys one with the money he has set aside for furniture. Hubby stands it just as long as he can and then comes to life and puts his foot down on the whole dad-blamed family.

"PUTTING ONE OVER"

Featuring Agnes Vernon.

A gunman murders a noted theatrical manager and when arrested tells a long and pathetic story which completely melts the hardened detective, and then a pal gives the game away.
